Our complimentary ink + toner program is super easy to use! Our program is designed around a zero waste-to-landfill policy which ensures that every component is either manufactured or recycled. Follow the steps below:

1. **Contact your Benjamin account executive to initiate a pickup**

2. **Gather your recyclables together, being mindful not to include the following: toner bottles, tubes and tanks, printer ribbons, dye cartridges, liquid ink tubes, bottles, or jugs**

3. **Give your empty inkjet and toner cartridges to our driver**

4. **Remember that you can choose between national brands (HP, Dell, etc) or purchase remanufactured recycled products for further savings.**

5. **Start recycling today!**
